

App of the week : Ultimate Gamepad

on February 28, 2017

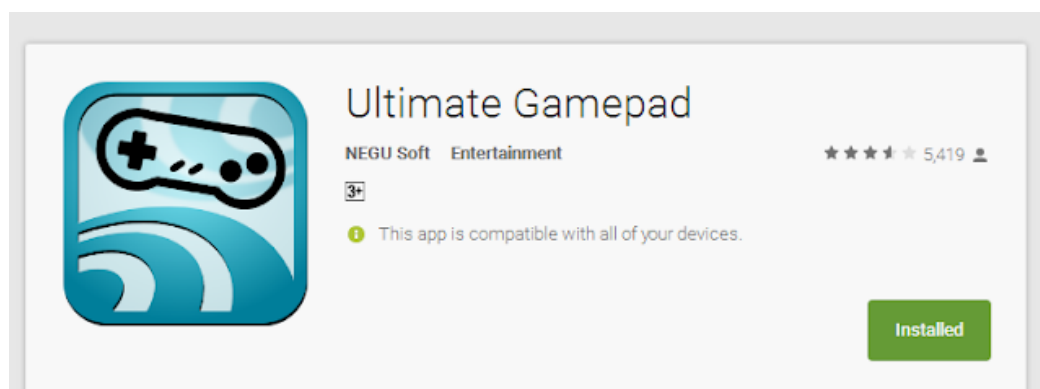

Hello friends

Today i have an app that might solve problem for gamepad problem. You can play games via your mobile. This app has both connectivity mode : Wifi and Bluetooth.

Ultimate Gamepad

For this you have to install its server software. Download it from [here](#).

Install it and use your android phone as a game controller. You need to map some keys but its not difficult. If you feel any trouble, just comment below.
