NeoVim Plugins setup

on March 11, 2020

deoplete

- Requirments
- python3 (enviroment setup)
- packages : pynvim, msgpack, jedi

```
pip3 install --user pynvim
```

```
pip install --user --upgrade msgpack
```

```
pip install --user jedi
```

- open init.vim and add this to vim-plug

- ```
  Plug 'Shougo/deoplete.nvim', { 'do': ':UpdateRemotePlugins' }
  Plug 'deoplete-plugins/deoplete-jedi'
  ```

- Append these lines to init.vim

- ```
  let g:python3_host_prog = expand('~/path/to/python')
  ```

- ```
  inoremap <silent> <CR> <C-r>=<SID>my_cr_function()<CR>
  function! s:my_cr_function()
      return (pumvisible() ? "\<C-y>" : "" ) . "\<CR>"
  endfunction
  inoremap <expr><TAB>  pumvisible() ? "\<C-n>" : "\<TAB>"
  ```

- # Open neovim and run command :UpdateRemotePlugins

NEOVIM
