# Greenshot : Screenshot app for windows
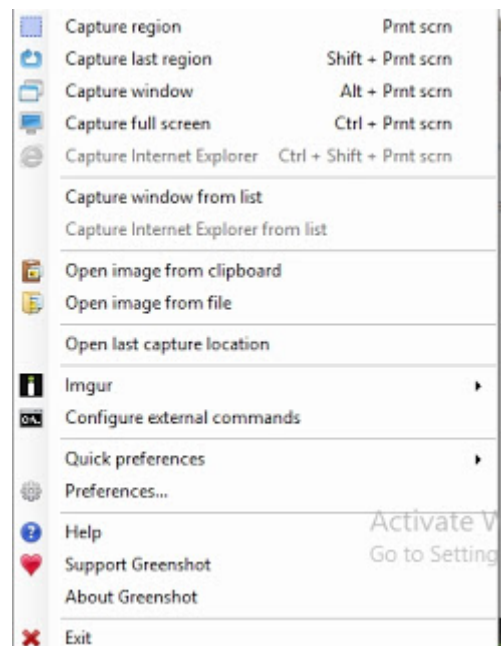

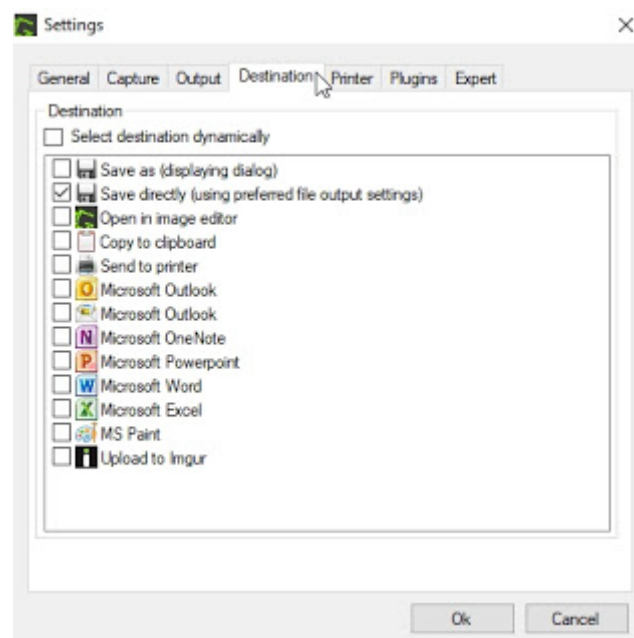

on May 10, 2019

Hello readers,

Many of us frequently use screen clipping software. Windows has a basic snipping tool. But below mentioned software has many features that can help you while you work. This software is open source and lightweight. So give it a try.

Go to download : https://getgreenshot.org/downloads/.

You can set your own shortcuts and custom destination folder.

	Capture region	Prnt scrn
	Capture last region	Shift + Prnt scrn
	Capture window	Alt + Prnt scrn
	Capture full screen	Ctrl + Prnt scrn
	Capture Internet Explorer	Ctrl + Shift + Prnt scrn
	Capture window from list	
	Capture Internet Explorer from list	
	Open image from clipboard	
	Open image from file	
	Open last capture location	
	Imgur	▶
	Configure external commands	
	Quick preferences	▶
	Preferences...	
	Help	
	Support Greenshot	
	About Greenshot	
	Exit	

Activate V
Go to Setting

You can also choose destination as word file or ms paint just select from this option.

Settings ×

General | Capture | Output | Destination | Printer | Plugins | Expert
